

864A
Scale Control Agent / Hardness Handler

Product Description

864A is a concentrated scale inhibitor and anti-foulant. 864A prevents scale build up in water heaters, heat exchangers and their transfer lines. 864A is harmful if swallowed. Do not use in potable applications.

Performance Features

- Prevents Scaling and Fouling – Contains A Combination of Synthetic and Organic Sequestrants To Keep Heat Exchange and Water Heater Surfaces Clean
- Non-Polluting – Very Low Toxicity
- Does Not Contain Zinc, Chromates Or Phosphates
- Economical And Convenient – Complete Liquid Treatment Formula Can Be Fed Directly From Shipping Container

Physical Specifications

Physical State	Liquid
Appearance	Blue
pH	5 - 6

Equipment Requirements

Operation of equipment should be done in accordance with the equipment manufacturer's instructions.

Product Make-Up

864A is a concentrated hardness handler / scale control agent. Dilute to specified strength concentrations.

Concentration and Application Methods

Industrial Water System Treatment

Feeding: In normal applications, feed rates of 10 - 20 ppm will be prevent scale buildup. 864A is harmful if swallowed. Do not use in potable applications.

Companion Products

RLT 45, Boiler Treatment Test Kit, BWT 250, BWT 251

Safety and Handling

Read and understand this products MSDS before handling.

Technical Data Sheet

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

Ordering Information

864A is available in 5 gallon pails and 55 gallon drums.

13505 Industrial Park Blvd. Plymouth, MN 55441
